

## **Public Tender No. 02/2015**

**Title:** Study of Surface Modifications of Cu-Sn Alloy for Tyre Bead Production Technology and Providing Services Related to Carrying out Experimental Works

**Reference No.:** 02/2015

**Date of Publication:** 13<sup>th</sup> May 2015

**Type of tender:** services

**Place of Realisation:** VIPO a.s., Gen. Svobodu 1069/4, 958 01 Partizánske, Slovak Republic

### **Annotation:**

- 1) Assessment of the potential of Cu-Sn alloy surface modification methods applicable in tyre bead production improving green strength (tack) of rubber blends deposited on the surface of steel.
- 2) Providing services related to the realisation of experimental works aimed at the optimisation of Cu-Sn alloy surface modification technology for tyre bead production following from research carried out in Part 1.

Detailed technical specification of the object of the tender will be provided to the participants on request.

### **CPV Code of the Main Object of the Tender:**

73000000-2 Research and development services and related consultancy services

**Expected Value of the Tender:** up to 10 000 EUR

### **Period for Submitting Offers:**

- start: 13<sup>th</sup> May 2015
- end: 20<sup>th</sup> May 2015

**Form of offer:** mail or e-mail to the addresses:

- VIPO a.s., Gen. Svobodu 1069/4, 958 01 Partizánske, Slovak Republic
- joravec@vipo.sk

**Date of evaluation of offers and notification of applicants:** 21<sup>st</sup> May 2015

**Form of notification of applicants:** e-mail

### **Criteria for Offer Evaluation:**

- meeting specific conditions
- lowest price

### **Specific Conditions:**

- meeting technical specification of the object of the tender provided to the participants on request

**Providing Information of Technical Character:**

Ing. Ján Oravec, CSc.

Director of the Polymer and Testing Division
